Our Story...

Dermal Aesthetic Step Into Great Skin and Health, was formally known as Dermal Aesthetic Laser Clinic. Mirielle, after many years of dedication too improving her clients skin health, now has a new role as mother to her beautiful daughter and decided to change her direction. This is when the new owner Kylie acquired the business with passion, dedication and education the team have embarked on offering the clients & patients at Dermal Aesthetic exceptional treatment, experience and a conscious way of giving back to the environment and community. Kylie has another boutique skin clinic and has over 10years experience within the industry.

Do what you love - Love what you do

And, here at Dermal Aesthetic, we truly love taking care of your skin!

Offering our clients at Dermal Aesthetic exceptional skin treatments, after thorough skin assessment and proudly providing a conscious and environmentally sustainable skin experience.

Our team is a mixture of Nurses, Dermal Clinicians, Skin Therapists and educators.

Our ethos is to go within and treat the gut health first; glowing from within extends to your healthy glow on the outside.

Keeping our team up to date on the most current knowledge, we invest in education and our knowledge to further help your skin. We carefully select our skin care products, internal health supplements and devices to ensure your skin is in the best of care.

Supporting Australian brands is one of our highest values, running a sustainable salon is essential and working alongside other like-minded brands is imperative.

We are committed to approaching your skin with respect, following the corrective principles of cosmetic medicine. Our team at Dermal Aesthetic will help you step into your healthiest skin.

Skin Journey & Health Wellness Assessment

SKIN OR HEALTH CONSULTATION

We offer consultations via our virtual clinic for consultations across all our modalities and retail products. Book online to schedule your virtual clinic opportunity if you are pressed for time to come directly into clinic.

Virtual Skin Consultation + Skin Journey Plan: This is a great way to have a virtual face to face with a team member if you are unable to come into the clinic due to work, family or illness. We can discuss your needs and what a skin journey plan would be. Can pre-do your skin DNA prior to virtual consultation for retail homecare advice. **30 min \$55**

Skin Journey Level 1: Skin Consultation + Home Care discussion + Skin Analysis + recommendation for treatment + home care. Mini cleanse is performed on the day. (Re-deemable with 3 or more skin-care products purchased on the day) **30 min \$55**

Skin Journey Level 2: Are you someone that wants to really educate yourself about your skin and understand exactly what is going on? Our Advanced Skin Analysis is far more than a chat or simple form filling in exercise (although we do both of these here too). Utilizing the Clairderm Skin Analyser we take the skin consultation process to the next level. You will receive a comprehensive understanding of your skin (in actual images) and we can then formulate a treatment plan and home prescription to help you achieve those results and goals. Providing a superior in-depth skin analysis and is capable of diagnosing 10 different skin conditions. Not only does it explore the surface of your skin, but more importantly what's happening within. It will show us skin texture, inflammation, sun damage, oil flow, dehydration and other key factors that all impact on the health of your skin. So along with all detailed questions we ask you (health/diet/lifestyle/cosmetic use) with this analysis machine we are able to tailor you unique Skin Program, nothing is ever one size fits all, as every skin is unique. Redeemable with any Package or 3 or more products purchased on the day. **60 min \$105**

Skin Journey Level 3: DNA skin test + report to discover your unique skin gene map, looking at markers within your skin's responses + mini enzyme skin clean + LED. (Redeemable with any course of treatments purchased on the day or membership programs for your skin journey) **90 min \$299**

Consult with Mirielle: If you are wishing to book a consult with Mirielle, who is both a Nurse and Dermal Clinician and was the founder of Dermal Aesthetics Skin & Laser Clinic, then this is the consult for you to book. **45 min \$90**
Mirielle will address your concerns be it: skin, health or immunity or a combination of these for you.

Skin Transformation Workout

This is where all the action happens with “skin transformation” + “skin correction” + “muscle toning” – We go to the gym to firm, tighten and tone the body, we offer you a “skin coach” to offer you a facial gym workout experience to maintain toning, tightening and anti-ageing.

SKIN JOURNEY TREATMENTS

Dermal Experience Facials

Our ethos is to transform 1 skin at a time and we are passionate, educated advanced therapist(s). Our team is a combination of skin therapists, dermal therapists & nurses. Each time we connect with you in clinic we will start with setting skin goals and ensuring the skin journey will compliment your desired result. Working only with advanced result driven cosmeceutical skin care brands.

Unsure which treatment to have?

Virtual Consults can be booked and paid for online, www.dermalaesthetics.com.au or see our booking button on our Facebook page www.facebook.com/morningtondermalskinhealth

Extra Support & TLC:

Reset your skins ageing clock with LED or Plasma Light. Repair and Rejuvenate your skin, stimulate collagen, improve skin tone and texture, treat acne, dermatitis and psoriasis, speed up wound healing, prep your skin for Dermapen 4 or Plasma Pen treatments and so much more, pain-free with no downtime.

Plasma Light: Plasma skin regeneration is a non-laser treatment that uses a device to deliver energy in the form of plasma to rejuvenate skin by improving facial lines + wrinkles + pigmentation associated with photo-ageing. Infra-red works to heal wounds, post surgical (Dr's clearance), skin infections, eczema & psoriasis, helps relieve knee and other joint pain.

LED: Colours in the visible light spectrum have their own wavelength, frequency and vibration and penetrate the skin to different depths. The light energy is absorbed by the cell and converted into cell energy. It's dispersed evenly to stimulate various types of cellular activities within the skin's tissues like increased fibroblast activity, collagen synthesis, cellular rejuvenation and reduced bacteria activity. Of the visible spectrum, violet light has the lowest penetration and absorption rate, whilst red light (640nm) has the deepest penetration and absorption rate. Infrared, although invisible to the human eye, has the deepest penetration and absorption of all aesthetic phototherapy wavelengths. Polychromatic light (multiple wavelengths), absorbed by the skin at different penetration depths, can treat a range of conditions more effectively than monochromatic light (single wavelength) that penetrates the skin to a single depth.

Formulated tightening mask designed to work with your circulatory system creating a detoxification that is vital for skin health and wellbeing. This supports the process of removing waste via our lymphatic system and nourishing our cells and tissues via our blood supply. Perfect pre-event, but also the glow just keeps improving for days afterwards.

Lymphatic Mask Therapy for buttocks and/or thighs

75 min

\$200

Do you have unwanted cellulite or red veins? Carry some fluid? Introducing the Buttzyme! This works to strengthen the skin, create oxygenation, extra blood flow and detoxification!

When our blood circulates around our body it supplies nutrients, water and oxygen to our cells and tissues. However during the capillary fluid exchange (where all those goodies travel from your bloodstream across the capillary wall), fluids don't travel very far into the surrounding tissue and even less when there are 'Road Blocks'. Which is why there needs to be a 'Clear Road', free from debris, so that these nutrients can get to their target. This is why lymphatic drainage (as well as circulation - getting there in the first place) is important to the health of your skin and why the circulatory system plays a vital role in a holistic approach to skin health.

Prin's Lymphatic Mask Therapy treatment works with the skin to assist with activating these processes, creating a clean pathway for all the goodies to get to the tissues and cells, allowing them to bathe in fresh oxygenated and nutrient rich blood (whilst carrying away the de-oxygenated blood and lymph).

Working from the knee up to, and including the butt cheeks, or alternately working front of the thigh, including the inner thigh and lower stomach area.

Keratosis Pilaris and / or Bacne (Back Acne) Keratosis Pilaris (KP) can be cleared in clinic with treatments and corrective home care.

A harmless skin condition that causes dry, rough patches & tiny bumps commonly found on the upper arms, thighs, buttocks or facial cheeks. The condition develops when too much of a protein called keratin develops & blocks the hair follicle causing bumps to form and often surrounded by redness.

All Skin Types, except impaired, broken, sensitised skins

Bacne or Back Acne This treatment has been created to treat the congestion, acne, blackheads and blocked pores on the back - often due to hormonal changes, but also excessive sweating from sport/gym/physical activity.

We can also recommend further treatments including Dermapen 4 to treat hormonal acne / scarring. Your therapist will make the best recommendation to your individual skins requirements.

Both skin conditions will incorporate prescription home care skin and Vita-sol Supplements to give you the best results.

All Skin Types, except impaired, broken, sensitised skins.

Plasma Pen (Non-surgical) Plaxpot Plasma Fibroblast uses a handheld “pen” device to create superficial thermal traumas that immediately shrink and tighten the skin. Over the next 90 days, new collagen and elastin is produced by your skin’s fibroblast cells as they work to repair the skin, meaning the skin tightening effects continue to develop as the healing process progresses.

Hair Removal + Reduction + Beauty Enhancements

Epi Blading EpiBlading, which is also known as epidermal levelling or dermaplaning, is a gentle method of skin exfoliation. A sterile surgical blade is used to glide over the face removing the outer layers of dead skin cells whilst also removing fine vellus facial hair, ensuring the skins integrity is maintained and also increasing the absorption of your active skin care ingredients. We then apply one of our Pro Dermal peels either Pomegranate or Pumpkin Enzymes, which are rich in antioxidants and peptides. There is little to no downtime associated with epiblading. Clients leave with smooth and glowing skin.

The clinic is a boutique clinic which means that we get extremely busy and keeping to time is essential for our clients + patients experience.

New Experience to us: All Consult forms will be emailed or sent via SMS to be completed PRIOR to your arrival.

A Gentle reminder that we do not accept cancellations with any less than 24 hrs notice. Unfortunately we have encountered far too many last minute cancellations and no shows.

Our beautiful staff are rostered specifically around the bookings they have. They are well-paid so that we can keep the very best therapists and clinicians for years to come. Continuity of care from your preferred clinicians is a huge core value at Dermal Aesthetic.

To keep this viable, we will be taking a 50% deposit to secure all NEW client bookings, existing clients won't be asked to pay a deposit but will be charged a cancellation fee of \$50 if cancelling within 24hrs.

We have changed SMS appointment reminders to 72 hrs prior to appointment times and all Tuesday clients will now be receiving a call from our gorgeous clinic concierge every Saturday to confirm your Tuesday bookings. We appreciate your acceptance in our clinic policies.

Gift Voucher clients will have their voucher void if they fail to attend there scheduled appointment without the adequate 24hr cancellation policy.

Lost or Stolen Gift Vouchers are not the responsibility of the clinic. If reported to us within 24 hrs. We can cancel and reissue new vouchers.

OHS Salon Guidelines: Sensitive topics, however legally we need to address the elephant in the room.

Unsupervised Children As we do not have any childcare facilities and we work with equipment that requires constant supervision. Our team is not legally allowed to babysit children even for short periods of time. We thank you for understanding.

Feeling Unwell To ensure the safety of all, we ask that if you are unwell, have a high temperature or may have an illness that can spread such as colds/flu or virus that for the safety of others and yourself, that all treatments be postponed and rescheduled to a date where you are once again in good health.

Covid_19 Regulations (as of March 26th 2021)
